

COVID Lies ***A Live Webinar***

Join with us to hear
Dr. Lee Merritt

expose:

- **the attack on successful, clinical treatments;**
- **the risks and documented adverse effects of the shot;**
- **and the establishment's assault on our medical freedom.**

Dr. Lee Merritt began her medical career at the age of four, carrying her father's "black bag" on housecalls, along the back roads of Iowa. In 1980 she graduated from the University of Rochester School of Medicine and Dentistry in New York, where she was elected to life membership in the Alpha Omega Alpha Honor Medical Society. Dr. Merritt completed an Orthopaedic Surgery Residency in the United States Navy and served 9 years as a Navy physician and surgeon before returning to Rochester, where she was the only woman to be appointed as the Louis A. Goldstein Fellow of Spinal Surgery..

Dr. Merritt has been in the private practice of Orthopaedic and Spinal Surgery since 1995, has served on the Board of the Arizona Medical Association, and is past president of the Association of American Physicians and Surgeons. She has had a long interest in wellness and fitness, and has been Fellowship Certified by the American Academy of Anti-Aging Medicine.

As a lifelong advocate of free market, patient-centered medicine Dr. Merritt had the opportunity to appear on the John Stossel show to speak against Obamacare. More recently she has appeared on numerous programs discussing Covid-19, the futility of mask mandates, and other lies and omissions from the medical "technocrats".

Dr. Merritt's recent article in The New American Magazine explained the effect of COVID-19 vaccines that were released on an emergency basis before being properly tested.

She is a lifelong advocate for a patient's right to choose their own medical care without government intervention,
